

Edan DUS 60 VET

Veterinary Ultrasound

Imaging

Superior Image Quality.

EDAN's DUS 60 VET is a popular high performance, low cost portable digital ultrasound that has now been improved with exclusive patented technology which drastically enhances the image quality. With a variety of multi-frequency transducers, multi-channel image enhancement, multiple segment TGC controls and powerful post-processing, this affordable ultrasound is a favorite among veterinarians.

Pulse Wave Doppler functionality.

Veterinarians will immediately benefit from this powerful diagnostic tool for cardiac studies.

Product Highlights

- Pulse Wave Doppler
- From "OFF" to scanning in seconds
- Multi-frequency transducer series (2.0MHz - 10.0MHz)
- 12.1" high-resolution LCD monitor
- 504MB permanent image storage capacity
- 256-frame bi-directional cine-loop memory

Edan DUS 60 VET

Veterinary Ultrasound

Compact, Lightweight and Portable.

Great for small animal and large animal practitioners, in or out of the clinic. The built-in battery provides 2 hours of use.

Enhanced Support.

Meets the higher diagnostic imaging requirements of veterinarians.

Backlit Keys

Backlit keys allows for use in low light. A full QWERTY keyboard enables the user to easily enter accurate patient information.

Embedded Software

Obstetric, cardiac and abdominal software is pre-loaded and allows the veterinarian to perform a multitude of examinations.

Accessory Ready

Easily attach a secondary monitor, laser printer or video printer to the DUS 60 VET.

Imaging

Specifications

- Pulse Wave Doppler for cardiac diagnostics
- Phase inversion harmonic imaging improves contrast resolution
- Multi-beam technology captures more detail
- Speckle reduction removes the "noise" to produce a clearer image
- More preset exam types increases work efficiency
- Intelligent 8-segment TGC adjustment
- 256-frame bi-directional cine-loop memory
- Two transducer ports, two USB ports
- THI (Tissue Harmonic Imaging), TSI (Tissue Specific Imaging)
- Transducer frequency: 2.0MHz - 10.0MHz
- Imaging modes: B, B+B, 4B, B+M, M, PW
- 12.1" high resolution LCD monitor
- Built-in Battery with 2 hour run-time
- Dimensions: 13"W x 13"D x 10"H

Standard Accessories:

- Micro-convex array transducer C613UA (4.0/5.0/6.0/7.0/8.0 MHz)
- Reproductive software
- USB pen drive
- Probe holder
- Lithium-ion battery
- Operators manual

Optional Accessories:

- Other transducers:
 - Linear endorectal
 - Linear array
 - Convex array
- Sony B&W printer
- Mobile trolley
- Storage/transport case
- DICOM 3.0 connectivity
- 500GB image storage capacity

Leading Edge provides Veterinary professionals high-performance, competitively priced, reliable Veterinary medical equipment, backed by world-class support and service. Through our Green Initiative, we've made a genuine commitment to support long term environmental sustainability and we're committed to protecting and preserving the environment. As a single source Veterinary medical equipment company, Leading Edge products are available only through a limited and select group of Distributors, who share in our philosophies and standards of excellence, commitment and service.
